

### Step 1: Receive

- Receive and Remove the product from the shipping sleeve
- Gently pull the tab from the box
- DO NOT THROW BOX AWAY - this is your return box!

### Step 2: Use Preparation

- Remove Instructions and itemized list of contents from the box lid (Place documents in a safe place for future reference)
- Open large plastic bag holding the containers. (NOTE: the large plastic bag WILL be used in repackaging for return shipment)
- Take out the containers and place them in a safe space

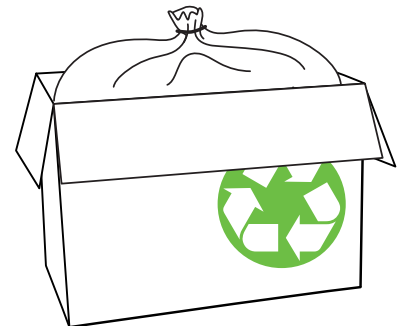

### Step 3: Use

- Twist lock to the unlock position and press down on the tab to open container
- Fill container with approved materials

### Step 4: Return Preparation

- Once the containers are full, close the lid on the container and twist lock into the lock position
- Remove the return materials (plastic bag, tie wraps, tape and return label) from the inside lid of the return box
- Place the container inside the plastic return bag
- Gather the plastic and seal with tie wraps
- Place filled sealed containers inside the return box
- Fill out the itemized list of contents and place the document inside the return box
- Gather plastic of large bag and seal with tie wraps
- Close and seal the return box with provided packaging tape
- Return via UPS

Make sure to reorder when supplies get low!
